I have worked in this valley for 35 years for the same construction company. I am opposing this process of completion on the Growth management plan. No one is aware of what the BOCC is proposing and it is unfair to push this through in a hurry. We the public, and all construction workers, realtors and architects that have made this valley their home will be affected and no one has told them about what is being proposed. You will be creating an Aspen depression full of unemployed people and everyone losing their jobs and houses on top of this critical time of COVID already. This plan must be addressed after COVID. There is not any way that people can communicate with the BOCC now. It is unfair and preposterous that the Board is doing this at this time. Please reconsider backing up and starting over and letting everyone know what is being put on the table. Jana Bouchard
